## The Best Container Viola from Seed or Your Money Back

**T&M believes this is the best ever Viola for growing in containers. If you don't agree we will give you your money back guaranteed!**

### **Viola x williamsii 'Sweeties'**

#### **NEW & UK EXCLUSIVE 2007**

Thompson and Morgan has trialed many Violas over the years and in its recent trials discovered the spectacular dwarf **Viola 'Sweeties'**.

Thompson and Morgan's Horticultural Manager believes this is the best dwarf Viola he has ever seen for growing in containers!

- Thompson & Morgan is so confident that this **Viola 'Sweeties'** is the best variety to grow in containers that it is offering to give any gardeners their money back guaranteed if they don't agree!
- Please note gardeners who do not agree must state which variety of viola they consider to grow better in containers than **'Sweeties'**.

**Viola 'Sweeties'** is a unique mixture of small attractive bi-coloured flowers resembling tiny sweets. These dwarf compact plants only grow 10cm (4in) high and are smothered in masses of flowers over a very long flowering period, making **'Sweeties'** ideal for growing in summer or winter flowering bedding displays.

**Viola 'Sweeties'** can be sown in February to March or June to September for flowering early summer, or in spring if sown June to September.

£1.99 for 25 seeds .
